

TORNADO WARNING

In the event of a tornado warning alert or actual tornado, students, faculty, and staff should do the following:

If you are indoors and if time allows, move to the lowest floor possible. Move into an inside wall away from windows. Everyone must remain inside the building for maximum protection. If time allows, close all doors to rooms. Assume a fetal position to protect your head and eyes.

If you are outside and hear a tornado warning or see a tornado, try to reach a building immediately. If you cannot reach a building, then you should lie flat in the nearest depression such as a ditch, curb, or ravine away from power lines, buildings, and trees.

If you are driving, do not remain in the vehicle. Get out of your vehicle and follow the instructions above. Do not attempt to outrun a tornado.
