Gen Ed Learning Outcomes

- Still waiting on notification of changes from the Gen Ed Taskforce

New Business

BAED Math Major

- MATH 120 was removed, the number of general and restricted electives was updated
- There was a small grammatical change
- Amanda motioned to approve, with the grammatical amendment. Kaitlin seconded. Motion passed

BA Math Major

- PHYS courses were removed from the Science & Engineering elective grouping due to infrequency of offerings
- There was a small grammatical change
- 9 upper division hours are missing (of the required 39 hours). The committee discussed different ways to include these hours in this major so that it is clear to students
 - Other majors outline these courses in the restricted electives within the major
 - Ann asked if departments, going forward, would work on including these hours within majors, since it is a degree requirement. There are a lot of students who apply for graduation who don't meet this requirement
- MATH 493 is changing to 2 credits. This has been noted on the catalog pages for this major, but a revised course outline needs to be submitted so that this can be changed in the catalog and Banner
- Sara motioned to approve, including the credit change to MATH 493, and the grammatical change. Amanda seconded. Motion passed

MATH 115 & 115S

- Prerequisites and corequisites were updated on these courses
 - The prerequisite for MATH 115 was updated for clarity
 - The Math Diagnostic Exam scores were added
 - The prerequisites on MATH 115S were removed completely
- Ann brought up that the course outline for MATH 115S states that it is a “pass/fail course”. We don’t offer these, so it should be changed to “credit/no credit”
- Amanda motioned to approve the course outlines with the additional changes, Sara seconded. Motion passed

Adjournment: Adam adjourned the meeting at 1:07 p.m.
